SUMMARY

Front-End Web Developer with hands-on experience building web applications using React.js, Next.js, TypeScript, and TailwindCSS. Experience in developing full-stack applications with backend technologies including Node.js, Express.js, and databases such as MongoDB and PostgreSQL. Proficient with modern tools like Firebase, Prisma ORM, Appwrite, Vercel, and Postman. Strong foundation in UI/UX design with Figma.

SKILLS

Front-End Technologies: React.js, Next.js 15, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, Shadcn UI

Full-Stack & Databases: Node.js, Express.js, MongoDB, PostgreSQL, Prisma ORM

Tools & Cloud Services: Git/GitHub, Postman, Vercel, Firebase, Appwrite, Figma (UI/UX Design)

Additional Languages: Python, Java, C#

EXPERIENCE

Frontend Developer

Freelance Projects (Ongoing Projects) | Jul 2025 – Present

- Developed responsive UIs for two client projects using React.js, focusing on frontend-backend integration and connecting Laravel APIs for data handling and user authentication
- Built interactive components with React.js and TailwindCSS, enabling dynamic content updates through optimized fetch calls and collaborated remotely with backend teams to translate API endpoints into frontend features.

Frontend Developer & Quality Assurance Intern

Qtech Business Solution Inc., Tayabas City, Philippines (Hybrid) | Mar 2025 – Jun 2025

- Architected and developed a full-stack customer support ticketing system, creating user-friendly web pages with responsive dashboards for customers, agents, and administrators using React.js and TailwindCSS.
- Collaborated with back-end developers to integrate Laravel APIs, ensuring usability and conducting QA testing.

RELEVANT PROJECTS

Postagram: Social media web application | Next.js, TailwindCSS, Shadcn UI, Neon PostgreSQL, Prisma ORM, Clerk

- Developed a responsive social media platform using Next.js and TailwindCSS with Shadcn UI components, enabling user posts, feeds, and interactions to boost user engagement.
- Integrated Neon PostgreSQL via Prisma ORM for scalable data handling and Clerk for secure authentication

Sync It: File Storage & Sharing Platform | Next.js 15, TailwindCSS, Appwrite, TypeScript

- Built full-stack cloud storage platform with file uploads, implementing folder organization and secure sharing features via Appwrite authentication for data security compliance to shared files up to 500MB.
- Optimized file upload performance through chunked uploading and progressive loading.

Resumind: AI-Powered Resume Analyzer Web App | React.js, React Router, Puter.js, TailwindCSS

- Designed and developed interactive resume analyzer with AI-driven candidate-job matching, using React Router for client-side navigation that reduced page transitions and enhanced user-friendly web page interactions.

SubTrack: Subscription Management System | MongoDB, Express, Node.js

- Build a backend subscription tracker for users and transactions, implementing JWT authentication and API architecture to handle subscriptions securely.
- Modeled MongoDB database, reducing manual processing time and ensuring secure payment handling through encrypted endpoints.

EDUCATION

Bachelor of Science in Information Technology

College of Sciences, Technology, and Communications Inc. (CSTC), Philippines | Aug 2021 – Jun 2025

Relevant Coursework: Capstone Project and Research, Web Development, App Development, Programming (Python, Java, C#, C++)

Thesis: BeeMo: IoT-Enabled Beehive Management System | Apr 2024 – Dec 2024

HTML, CSS, PHP, JavaScript, Arduino, MySQL
